

Trust Us to be There

The threat of infectious disease is an unfortunate by-product of our more connected world. Come what may, we must seek innovative ways to deal with the possibility of pandemic at whatever stage it has reached or moving into. Pandemic Planning is the standard for many businesses—and it can be for yours as well.

Pandemic planning should be a key component of every comprehensive Business Continuity Plan. There are four overarching components to our Pandemic Planning process; Strategize, Plan, Prevent, and Test.

Solution Overview

Strategize

- ✓ Discuss operational goals with management
- ✓ Prioritize functional objectives with key staff
- ✓ Identify and agree to acceptable recovery timelines and goals for plan inclusion

Plan

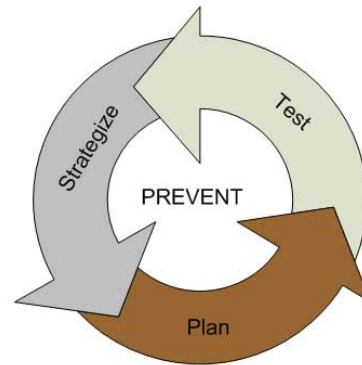

- ✓ Formalize and document restoration activity by functional area
- ✓ Review and adjust plan based on stakeholder priorities
- ✓ Present plan to senior management for comments and approval
- ✓ Present plan to organization and initiate processes and procedures

Test

- ✓ Review and improve workforce behavior and improve performance
- ✓ Assess, stress, and improve facility readiness
- ✓ Incorporate improved procedures

Prevent

- ✓ Heighten employee awareness
- ✓ Update ongoing hazard levels
- ✓ Deliver preventive tools and strategies for ongoing security

IT-Lifeline’s Business Recovery Center provides firms across business segments with a full range of IT continuity solutions—from plans to action—that ensure full recovery from natural or man-caused calamity, system failure, or unlawful or accidental intrusion. We offer a range of planning solutions, including Business Continuity Planning, Pandemic Planning, and Life Safety Planning.
