

Protection at the drop of a hat

That's how fast it can happen—at the drop of a hat. One moment you're interacting with customers and processing their data with core and office applications and delivering top service, and the next your system is down and you're at a technological standstill.

We're equipped and staffed to configure the level of failover protection your business requires. Instantaneous; near instantaneous; a little longer than near instantaneous? No problem. You tell us how long your business can wait to recover, and we'll deliver.

IT-Lifeline's Business Recovery Center provides firms across business segments with a full range of IT continuity solutions—from plans to action—that ensure full recovery from natural or man-caused calamity, system failure, or unlawful or accidental intrusion.

Our range of planning solutions—Business Continuity Planning, Business Pandemic Planning, and Business Life Safety Planning—can all include whatever level of failover your business requires and we'll be ready for with a recommendation that's right for you.
